ABOUT

- Aspiring software developer pursuing a B.Tech in Computer Science Engineering with a specialization in AI. I have a strong foundation in programming languages, web development, and practical experience in full-stack development using the MERN stack.
- I am actively seeking an internship to contribute to impactful projects, expand my technical expertise, and develop my problem-solving skills in a dynamic work environment.

EDUCATION

- **Bachelor of Technology (B.Tech) in Computer Science Engineering (CSE AI)**
Institute of Engineering and Technology, Lucknow (IET Lucknow) Nov 2022 - Present
CGPA: 9.02
- **Intermediate Education**
Cathedral College, Jhansi 2008 - 2021
Percentage: 96%

PROJECTS

- **Portfolio Website** [🔗](#) [📄](#)
A personal portfolio website to showcase my projects and skills. The site is designed to provide a user-friendly interface and highlight my expertise in web development.
Tech Stack: HTML, CSS, JavaScript
- **School Management System** [📄](#)
A comprehensive system for managing school operations, including student enrollment, attendance tracking, and grade management. The application features a responsive design and user-friendly interface.
Tech Stack: React, Node.js, Express, MongoDB, RESTful API, Authentication
- **Car Rental Application** [🔗](#) [📄](#)
A frontend application for a car rental service that allows users to browse and book rental cars. The app is designed with an intuitive interface and includes features for searching, filtering, and reserving vehicles.
Tech Stack: React, HTML, CSS
- **Weather App** [🔗](#) [📄](#)
A web application that provides real-time weather information for any location. Users can search for cities and view current weather conditions, forecasts, and more.
Tech Stack: React, OpenWeatherMap API
